

## Florida 2005 Legislative Initiatives and Sample Language

### State Write-In Absentee Ballot

We recommend that Florida provide a state write-in absentee ballot for **all elections**. We commend you for passing legislation that allowed for a state write-in ballot for general elections. However, we request that you expand this to all elections. The purpose of the state write-in absentee ballot is to **provide a method for voting by military and other persons overseas who, due to military contingencies or special circumstances such as those faced by submariners, Peace Corps volunteers, missionaries or others in remote areas, will be out of communication for extended periods of time and unable to receive the regular ballot from your state in the normal time frame for all elections**. Thus, a voter would know that they could exercise their right to vote for all Florida elections, not just one. We encourage you to include this in your next legislative package.

### Sample Language

*If the voter is a U.S. citizen residing outside the United States or is a member of the United States Uniformed Services, merchant marine, or family member and a qualified elector, he or she may request, not earlier than 180 days before an election, a special write-in absentee ballot. The voter must submit with the request a statement that provides that due to military or other contingencies that preclude normal mail delivery, the elector cannot vote an absentee ballot during the normal absentee voting period. The ballot will be available 90 to 180 days before the election.*

### Expand Use of Federal Write-In Absentee Ballot

Currently in Florida, the Federal Write-In Absentee Ballot (FWAB) may be used only in general elections for Federal offices only. This ballot is prepositioned worldwide at Embassies and Consulates, military installations and overseas organizations and corporations with American membership. By **expanding its use to include special, primary and runoff elections for Federal offices**, citizens would not be disenfranchised because regular ballots are not received in a timely manner. Frequently, there is insufficient time between the call for a special election and the actual election and between primary and runoff elections. Allowing use of the FWAB in these elections would reduce the possible need for legal action when insufficient time exists for the ballot to be received, voted and returned to be counted. During past primaries, on an *ad hoc* basis, several states and jurisdictions allowed the FWAB to be used for offices other than Federal offices. Eleven other states have expanded its use beyond the Federal law.

In addition, for those citizens that desire to vote in elections for Federal office only, the acceptance of the FWAB transmission envelope as **a request for registration simultaneously with the submission of the FWAB** would further simplify the process, improve on transit time and help ensure enfranchisement. It should be noted that the information requested on the FWAB transmission envelope is basically the same as the information requested from the voter on the Federal Post Card Application (FPCA). We

recommend the FWAB transmission envelope and FWAB be accepted simultaneously as a registration form and ballot by the state for general election and Federal offices if:

- (1) the information submitted complies with the state's registration requirements;
- (2) the voter is otherwise eligible to vote absentee in the jurisdiction where the request is submitted;
- (3) the request is received by the appropriate state election official not less than 30 days before the election or by the registration deadline established by the state.

The adoption of this initiative would save the state money and alleviate administrative responsibilities on the part of local election officials.

### **Sample Language**

- Expanded use of the FWAB:

*If the voter is residing outside the United States or is a member of the United States Uniformed Services, merchant marine, or a family member and a qualified elector, he or she may use the Federal Write-In Absentee Ballot in general, special, primary, and run-off elections for local, state and Federal offices.*

- Use of FWAB as a Combined Request for Registration and Ballot Submission:

*If the voter is residing outside the United States or is a member of the United States Uniformed Services, merchant marine, or a family member and a qualified elector, he or she may use the Federal Write-In Absentee Ballot (FWAB) transmission envelope as a request for registration simultaneously with the submission of the FWAB if:*

- (1) the information submitted complies with the registration requirements of the state;*
- (2) the voter is otherwise eligible to vote absentee in the jurisdiction where the request is submitted; and*
- (3) the request is received by the appropriate state election official not less than 30 days before the election or by the registration deadline established by the state.*

### **Enfranchise Citizens Who Have Never Resided in the U.S.**

There are many U.S. citizens who have never resided in a state and under current law are not entitled to vote. These are usually first or second-generation citizens who are subject to U.S. income tax and all other requirements of citizens. Except for the fact that they have never resided in a state, they would be eligible to vote in elections for Federal office. Some local election officials make exceptions and allow these citizens to vote. **Thirteen** states have passed legislation allowing these citizens to claim the legal residence of a parent. **We**

**recommend these citizens be allowed to vote in elections for Federal offices** where either parent is eligible to vote under *UOCAVA*.

**Sample Language**

*If a U.S. citizen outside the United States who has never lived in the United States has a parent who is a qualified elector, then that person is eligible to register and vote where his or her parent is a qualified elector.*

**Electronic Transmission of Election Materials**

Although Florida passed legislation allowing the electronic transmission of the blank ballot and receipt of the voted ballot by overseas U.S. citizens, we encourage you to expand the use of this alternative. We request that Florida allow election officials to electronically send the blank ballot and accept the voted ballot electronically from military voters **in the U.S.**, on a regular basis, where circumstances would otherwise disenfranchise a citizen. The sample language below would accommodate this alternative.

**Sample Language**

*An election official may send blank ballots and accept voted ballots from eligible electors who are members of the United States Uniformed Services, merchant marine, or family members, or qualified electors via electronic transmission.*
